Senior lead product designer with deep experience scaling B2B SaaS from scrappy v1s to **enterprise-grade** platforms. I partner closely with product and engineering to drive revenue, retention, and growth, while building and leading high-performing design teams and shipping complex, customer-centered work at scale. Before product, I spent a decade as a teacher and college counselor in under-resourced schools — where I first found that designing tools to empower people was the work I loved most.

EXPERIENCE

- Senior Lead Product Designer** OCT 2023 — PRESENT
Moxie · Remote
Product Designer **OCT 2023** → Senior Product Designer **JUL 2024** → Senior Lead **JAN 2026**
Founding designer for the operating system aesthetic practices run on. Scaled the product from solo-provider v1s to enterprise, multi-location systems across payments, scheduling, compliance, and reporting; grew the design team from one to four and tied design to revenue, retention, and conversion.
- Head of Product** FEB 2020 — OCT 2023
Overgrad · Remote
Product Designer **FEB 2020** → Head of Product — product manager & designer **JUL 2020**
Led product for a college-counseling SaaS used by charter networks. Shipped typed custom data fields, self-serve reporting, and live in-product dashboards that replaced teams' exports to Tableau, Sheets, and Airtable.
- Product Designer** JUN 2018 — FEB 2020
Granicus · Denver, CO
Designed workflow and reporting experiences for government and public-sector SaaS.
- College Counselor & Teacher** 2006 — 2017
